CAREER OBJECTIVE

I want to build my career in Artificial Intelligence and Machine Learning, where I can use my skills in Python, DSA, and data analysis to work on real-world projects. I am currently pursuing the IBM Machine Learning Professional Certificate and aim to grow as a confident professional by learning from industry experience and contributing to innovative AI solutions.

EDUCATION

Bachelor of Computer Applications – AI/ML	JECRC University, Jaipur	2022 – Present
Senior Secondary (Class 12)	GR Global Academy	2021-22
Secondary (Class 10)	GR Global Academy	2019-20

PROJECTS

- Weather Forecasting Application 2025
 - Developed a Python-based weather app using API integration to fetch real-time weather data.
- Banking Management System 2025
 - Developed a Python-based project for managing user accounts using OOP and file handling.

CERTIFICATIONS

- IBM Machine Learning Professional Certificate Ongoing
- Infosys Springboard:
 - DSA 2024
 - Java 2024
 - Python 2025

TECHNICAL SKILLS

- Languages: Python, C++
- Libraries/Frameworks: Pandas, Numpy
- Web Technologies: HTML, CSS
- Core Concepts: DSA, OOP, Algorithms

SOFT SKILLS

- Adaptability
- Discipline
- Time Management
- Quick Learner
- Creative thinking

HOBBIES

- Art and Painting
- Journaling
- Designing

INTEREST

- Data analysis
- Travelling
- Exploring tech tools
